

HUMAYL IFTIKHAR

Supply Chain & Analytics Intern Candidate

Lahore, Pakistan · +92 316 4193359 · humayl2910@gmail.com · [linkedin.com/in/humayl-iftikhar](https://www.linkedin.com/in/humayl-iftikhar)

OBJECTIVE

Supply Chain Analytics student looking to gain hands-on experience in supply chain operations, logistics, or procurement. Bringing practical skills in data analysis, dashboarding, and reporting and eager to apply coursework in Operations Management, Supplier Selection, TQM, and Transportation Techniques to real supply chain challenges.

EDUCATION

BS Supply Chain Analytics | *University of Lahore*

Oct 2023 – Present

Minor: Data Analytics

- Relevant Coursework: Operations Management, Supply Chain Essentials, Supplier Selection & Evaluation, Total Quality Management (TQM), Transportation Techniques
- Analytics Tools Studied: MS Excel, Python, Power BI, SQL (fundamentals)

Intermediate in Commerce (ICOM) | *Punjab Group of Colleges, Lahore*

Aug 2020 – Jul 2022

SKILLS

Analytics & Tools

- Python – pandas, numpy, data wrangling
- MS Excel – PivotTables, VLOOKUP, data cleaning formulas
- Power BI – interactive dashboards & visual reports
- SQL – basic querying and filtering

Supply Chain Knowledge

- Operations Management & process flow
- Supply chain essentials & demand concepts
- Supplier selection & performance evaluation
- Total Quality Management (TQM)
- Transportation & logistics techniques

Languages: English (Fluent) · Urdu (Native) · Punjabi (Native)

WORK EXPERIENCE

Freelance Data Analyst | *Self-Employed | Remote*

Jun 2024 – Dec 2024

Delivered analytics solutions for clients across multiple industries, managing full project lifecycle from requirements gathering to dashboard delivery.

- Collected, cleaned, and analyzed 10+ large datasets using Excel and Power BI — including retail inventory and sales data — to support client decision-making
- Built 8+ interactive dashboards and reports that reduced client time-to-insight by ~30%, surfacing key trends and business opportunities
- Improved data accuracy and reporting efficiency by ~25% through structured cleaning and transformation workflows
- Worked directly with clients to translate business requirements into data-driven deliverables

PROJECTS

Supply Chain Data Analysis | *Academic Project*

2024

- Analyzed supply chain datasets covering inventory, supplier performance, and logistics costs using Python (pandas) and Excel
- Identified patterns in supplier lead times and delivery delays; presented findings through a Power BI dashboard
- Applied concepts from Supplier Selection and Operations Management coursework to interpret results

Data Analytics Portfolio | *Academic & Independent*

2023 – Ongoing

- Designed and executed 5+ data analysis projects solving real-world business problems across retail, operations, and logistics domains
- Performed data cleaning, EDA, and visualization on datasets of up to 50,000+ records
- Built dashboards using Power BI and Excel condensing complex data into clear, actionable reports

LEADERSHIP & ACTIVITIES

Participant – Rotary Youth Leadership Awards (RYLA) |

May 2025

- Selected for an international leadership development program focused on communication, teamwork, and problem-solving

Captain – Department Football Team | *University of Lahore Sports Gala*

- Led team strategy, coordination, and motivation — demonstrating leadership and decision-making under pressure

Looking to gain hands-on supply chain experience and contribute through data-driven thinking.
